

## **LearningChess.net Free for Schools Program**

Greetings to all attendees of the International Conference "Chess in Schools", Yerevan 2014. Thanks to the organizers we can introduce you to our new, non-profit scholastic chess initiation which is getting more and more popular worldwide.

### **What is the Free for Schools Program?**

LearningChess.net offers its complete chess learning and playing system, including the extensive and proven online chess curriculum free of charge for schools and educational institutions. The program was launched on 1 September 2014 and already more than 2.000 students joined from USA, Europe and Africa. We hope that we can welcome more schools - also from Asia and Australia - after the conference and that we can extend our program to languages other than English.

### **What is included in the curriculum?**

LearningChess.net has been built up from the very beginning so that it can be used in school education as a modern teaching or teacher's training tool and as an extracurricular or home activity for students. The curriculum developed by qualified chess teachers and grandmasters contains 3 levels, 108 lessons and 3500 challenges:

- one level can cover as much as the complete school year
- unique, interactive, adaptive and proven teaching method
- playful, humorous, 100% child safe and completely advertisement free.

### **How can your school join the program?**

You school can join the program by clicking on <http://learningchess.net/contact?topic=freeForSchool>  
Learn more about LearningChess.net by clicking on <http://learningchess.net/>

Our mission is to popularize chess - as a game and personal development tool - all over the world.
